

MA-22 No Odor

- Great for use in Occupied Buildings!

- **CARB and OTC Compliant**

- **125 sq. ft./gal**

PRODUCT DESCRIPTION

MA-22 No Odor Mastic Remover is designed for use in occupied buildings where odor can not be tolerated. Our MA-22 No Odor is great for removing mastic in hospitals, schools and commercial buildings. This odorless mastic remover works well at removing asphalt and solvent based mastics commonly found under asbestos containing VAT and VCT floor tile. It is also compliant with all CARB and OTC regulations making this product a good choice for almost any project that comes your way. With virtually zero odor, a flashpoint over 200°F and strong active components, MA-22 No Odor Mastic Remover provides the best combination of speed, consistency and usability of any mastic remover on the market.

PROPERTIES

State: Liquid

Appearance: Clear

Color: Colorless

Odor: Very low solvent odor

Viscosity: Very Thin

pH: Slightly acidic in water

Chlorinated: No

Dilutable: No

Weight: 6.97 lbs/gal

Rinsable: Yes

Organic: Yes

Boiling Point: 446°F

Solubility in Water: 19%

Evaporation Rate: (Ether = 1) 0.08 (Approximate)

DIRECTIONS

1. Apply MA-22 directly to exposed adhesive by either manually pouring or spraying with a low pressure garden sprayer.
2. Allow 15-25 min for remover to penetrate and soften mastic.
3. After the adhesive has softened, remove with long handled scrapper, broom, or squeegee. Scrape the mastic into a pile or puddle and remove using absorbents, plastic shovels, or explosion-proof wet vacuums.

✧ Stubborn areas or acrylic (brown) mastics may require more aggressive mechanical agitation with a long handle scraper.

4. Rinse the surface with water and detergent to remove any residual product or liquefied mastic.

✧ Porous surfaces may require special care in rinsing to ensure all the solvent is emulsified (this will also aid in preparing the surface for new mastic adhesive)

5. Dispose of waste material according to all federal, state, county, and local regulations.
